Rethinking Perioperative Pain Management – Small Changes, Big Impact

Speaker: Dr. med. vet. Isabelle Iff, Dipl. ECVAA

26.11.2025, 19:00 CET

Rethinking Perioperative Pain Management – Small Changes, Big Impact

Pain control in dogs and cats has made great progress in recent years. Still, in the hectic pace of daily practice, perioperative pain management often follows long-established routines. But could those routines be even better?

This webinar is designed to help you take a fresh look at your current protocols. Together, we'll explore how small adjustments – based on new scientific evidence and updated guidelines – can make a real difference to your patients' comfort and recovery.

What to expect:

- ✔ A concise review of current knowledge in analgesia and anaesthesia
- ✔ Practical interpretation of the latest recommendations and standards
- ✔ Real-life examples and tips for everyday clinical situations

Join **Dr. Isabelle Iff, Dipl. ECVAA**, a European-recognized specialist in anaesthesia and analgesia, as she shares valuable insights and practical tips to help you optimize perioperative pain control for your patients.

Speaker: Dr. Isabelle Iff, Dipl. ECVAA, is an internationally recognized lecturer and expert in anaesthesia and pain therapy.

Join us and take your perioperative pain protocols to the next level – for smoother workflows and happier patients.
